

# CO2 Service and Tank Rentals with Airgas National Carbonation

Consider getting competitive rates on your CO2 monthly service and tank rental by taking advantage of the Roller Skating Association International (RSA) beverage-grade CO2 contract that offers discounted monthly rates for bulk CO2 tank rental with lower per pound delivered price. Call to arrange a non-cost, no-obligation cost savings analysis and site survey.

Roller Skating Association International (RSA) and Airgas have reached a 5-year operating agreement. **Take advantage of the great rates negotiated by Roller Skating Association International (RSA).**

**Airgas** National Carbonation  
an Air Liquide company

<b>Monthly tank rental, CD 450 or 550 bulk tank:</b>	<b>\$ 50/per month, per tank</b>
<b>Beverage-grade bulk CO2:</b>	<b>\$ 0.275/per lb.</b>
<b>Delivery charge:</b>	<b>\$ 9.95 per delivery</b>
<b>HAZMAT fee:</b>	<b>No charge</b>

The Airgas National Carbonation MicroBulk System is the safest, cleanest and most efficient carbonation system. Added benefits of MicroBulk include:

- **Reduced** CO2 usage **up to 30%** (compared to cylinder usage)
- **Elimination** of costly run-outs – no more flat drinks, wasted cups or residual CO2 in switched cylinders
- **Improved safety** – eliminating the need to constantly change cylinders and tank filling occurs outside the building
- **Free** indoor or outdoor installation **(\$500 value)**<sup>1</sup>
- **Free** CO2 Sentry Monitor with CO2 tank rental for every new indoor installation **(\$750 value)**
- **Proactive 24/7** call service for your convenience, contact 800-772-8144

<sup>1</sup> Free standard installation for Airgas owned equipment. Installations requiring additional piping or labor will be quoted separately.

## Mixed Gas Dispense System

For members that serve draught beer, have a wine by the glass program or serve nitrogen-infused coffee, the Airgas BeerBlast® Mixed Gas Dispense System is engineered to provide exact blend of CO2 and Nitrogen, protecting the quality of your product and ultimately increasing satisfaction and profitability. Contact Airgas for more information.
